BRINGING A FRESH **PERSPECTIVE** TO YOUR FEDERAL MISSION REQUIREMENTS

Bringing a Fresh Perspective for Meeting Your Operational Readiness Requirements

Integrated Systems Solutions, Inc. (ISS) is a service disabled, veteran-owned small business (SDVOSB) that provides high-value professional services in program management, communications and outreach, IT services, requirements management, systems engineering and technical services. Bringing a fresh approach to your federal requirements, our highly experienced ISS team is creating a collaborative evolution of new ideas and problem solving methodologies for meeting your most challenging world-wide mission requirements.

Our ISS senior management team has extensive experience in support of numerous agency initiatives at the National Oceanic and Atmospheric Administration, Defense Logistics Agency, Veterans Administration, DoD and General Services Administration. Our clients have rated us in the top 5% of service providers through the Dun and Bradstreet Open Ratings report.

Award Winning Company

For 2016, ISS was awarded a regional EMMY® Award for its "Trash Talk" video series produced for the National Oceanic and Atmospheric Administration as part of its on-going communications and outreach program efforts managed through ISS.

OPTIMIZED QUALITY AND SERVICE DELIVERY

ISS leverages its certified Quality Management System to provide our clients with improved processes reduced risk and delivery of desired outcomes:

Certified International Organization (ISO) 9000:2008 company that operates with the highest standards of quality management exemplified through strong client focus and methodical approach to process improvement.

Fully appraised as a Software Engineering Institute (SEI) Capability Maturity Model Integration (CMMI) Level 2 (Software) and (CMMI) Level 2 (Service) offerings provides improved on-time delivery, decreased costs and better quality control.

Integrated System Solutions is a recognized client leader in excellence and services/solutions delivery, positive attitude and integrity and commitment of its people to successfully meet client complex needs while reducing risk and optimized productivity. We bring a fresh new perspective and approach for solving your mission critical needs for the new millennium.

Streamlining Your Procurement Process

ISS facilitates and streamlines the procurement process through utilization of our contract vehicles which can provide rapid response and delivery to meet your critical mission needs.
